

## Assignment 3 – Navigation in Apps

**(CLO-3: Demonstrate the concepts of React Native & React Navigation in the context of mobile application development)**

Submission Guidelines:

**Deadline: 10 December. 2024 (4:30 PM)**

Description:

Add 2 more screens to your Assignment-2

1- Signup Screen

2- Login Screen

Add Navigation to the app to allow navigation from Signup to Login and the 3<sup>rd</sup> screen you already designed in Assignment-2

On filling the signup form the user should navigate to login and on filling login form the user should navigate to 3<sup>rd</sup> screen.

Must add checks on the forms like

- password length,
- different characters in text
- alphabets only in username
- Email format check,
- Phone number format check to match +92-3xx-xxxxxxx
